

Formula TKM 2 Stroke Regulations Clarification

Effective June 12th 2012

We wish to clarify the parts situation with reference to the TAG electrical system as detailed in the 2012 BT82 Engine fiche.

We clarify that the only items which must be used are: PVL Plug Cap, PVL HT lead, PVL Coil, PVL Rotor, PVL Stator and the PVL CDI box.

We clarify that the various items listed as not mandatory such as relays, fuses and PVL wiring loom, may be completely removed from the kart.
